INTUITIVE EFFICIENT MUNICIPAL SOFTWARE SOLUTIONS.

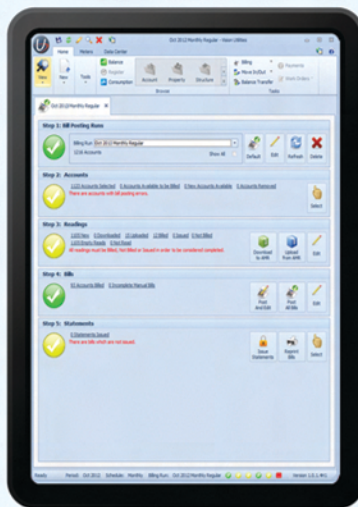

Different municipalities have different needs.

Vision Municipal Solutions has 7 new modules, to add to our Utilities, Financials, Payroll, and Cash Management modules.

So there is something that fits everyone.

VISION SOFTWARE ADVANTAGES

Our software is based on the Microsoft Office® user interface to ensure a higher level of productivity from the start. We have created secure, innovative software solutions by incorporating today's best technologies, while providing the foundation for technological advancements you want tomorrow.

- Microsoft SQL Server Database
 - Security, Reliability, Scalability
- Microsoft .NET Framework
 - Data Integrity, Integration
- ClickOnce Deployment
 - Automatic Updates, One Version
- Modern Windows User Interface
 - Easy to Learn & Increased Efficiency
- Data Grids
 - Customizable and Savable per User
- Instant Search, Group, Sort, Filter
 - Wizards
- Settings, Procedural Accuracy

RECEIVABLES

Our Receivables module easily handles any miscellaneous billing that falls outside the scope of your normal utility billings. The software allows you to track and manage all of your receivable accounts, rates, invoices, and receipts.

- Integration with Vision Financials and Cash Management.
- Unlimited Rates
 - Fees and Taxes
- Unlimited Account Types
- Easily Accessible Invoice and Receipt History and Detail

FIXED ASSETS

Our Fixed Assets module efficiently handles the Tracking, Verification, and Maintenance Schedule of all your assets. View each assets entire history including any Additions and all Maintenance records. The fully-integrated scheduling calendar, with Outlook integration, ensures that the maintenance of your assets is completed.

Document Storage

- Invoice Image integration formats: PDF, JPEG, Bitmap, and GIF
- Document integration formats: Word and Excel

Unlimited Tracking Types

- Groups, Tags, Condition, Status, Department, etc.

Depreciation Schedules

- Straightline, Double Declining, and Activity

PARKS AND REC

Our Parks and Recreation module is built to manage operations, improve customer service, and make your staff more efficient. Enhance your services to your community with our integrated event management and event calendar.

- Unlimited Events
 - Lessons, Classes, etc.
- Unlimited Facility Rentals
- Easily Accessible Event Viewer, History, and Detail

LICENSES: BUSINESS, PET, AND B&O/EXCISE TAX

Integration with our Cash Management application makes Vision Licenses an efficient tracking, invoicing, and receipting module.

Pet Module:

- Medical Tracking
- Vet and Vaccinations
- Pet Type, Breed, Gender, Color, Tag Year, Tag ID

B&O/Excise Tax Module:

- Unlimited Tax Classification Types

The Vision Licenses application can be customized to fulfill your Business licensing, Pet licensing and B&O/Excise Tax needs. You can purchase each module separately or run them all. All systems:

- Unlimited License Types
 - Business, Cycle, Pet, etc.
- Unlimited Rate Types
- Easily Accessible Account Center, Invoice and Receipt Detail, License History, and License Detail
- Automated Renewal and Penalty Routines

PURCHASE ORDERS

The Purchase Order module was designed to eliminate duplicate data entry. It inherits your existing Chart of Accounts from the Financials module and seamlessly interacts with Invoice Posting and Receipting.

- Purchase Order Entry and Detail
- Integrated Purchase Order Approval
- Built-in Purchase Order Printing
